EXPERIENCE

Intern   AUG 2023 - SEP 2023

TechCiti Software Consulting Private Limited   *Bangalore*

- During my internship, I worked in the domain of machine learning, where I gained hands-on experience with various algorithms and data analysis techniques.
- Pioneered the CROP RECOMMENDATION SYSTEM project.

PROJECTS

Tomato Leaf Disease Detection using Deep Learning

- Developed a Web basis Application involves leveraging advanced neural network models to identify and classify diseases affecting tomato plants from images of their leaves using CNN Model.
- Tools-Visual Studio,Chrome
- Languages-HTML,CSS,ML,PYTHON Framework-Flask

Crop Recommendation System

- Developed a web-based application that analyzed weather and soil data to predict crop success rates based on location, increased crop yield predictions accuracy by 20 percent through machine learning algorithms implementation.
- Tools-Visual Studio,Chrome
- Languages-HTML,CSS,ML,PYTHON Framework-Flask

Personal Portfolio

- Created a web-based application that showcases my skills as a Frontend Web Developer and also created an automated 'Contact Me' feature using a no-code tool.
